GEOLOGY IN CHINA

(Bimonthly)

Dec. 2018 Vol. 45, No.6 (Serial No. 389)

Contents

In Focus

Characteristics of geothermal geology of the Qiabuqia HDR in Gonghe Basin, Qinghai Province
..... ZHANG Senqi, YAN Weide, LI Dunpeng, et al(1087)

Reviews

Research progress and future development directions of geo-resources and environment carrying capacity
..... YIN Zhiqiang, LI Ruimin, LI Xiaolei, et al(1103)

Research Articles

Characteristics and affecting factors of land subsidence identification based on PSInSAR measures in Shandong Peninsula Blue–Yellow Overlapping Economic Zone LIU Hongwei, DU Dong, XU Jingbo, et al(1116)

Hydrogeochemical characteristics and formation evolutionary mechanism of the groundwater system in the Hami basin SUN Houyun, MAO Qigui, WEI Xiaofeng, et al(1128)

Geochemical characteristics and source mechanism of geothermal water in Tethys Himalaya belt
..... XU Peng, TAN Hongbing, ZHANG Yanfei, et al(1142)

Geochemical characteristics of the bayberry producing area in Longhai, Fujian
..... YAN Hongze, ZHOU Guohua, SUN Binbin, et al(1155)

The distribution of soil selenium in Shouning County of Fujian Province and its influencing factors
..... WU Jun(1167)

Material characteristics of dust fallouts during the dust–storm weather in Harbin: Constraint on the provenance
..... YUAN Fang, XIE Yuanyun, CHI Yunping(1177)

Yanshanian thermo–upwelling extension and palaeo–hydrothermal system in southeast Guangdong: A case study of Enping–Xinfeng detachment fault..... QIN Xuping, LI Dewei, LIU Jianxiang, et al(1188)

The discovery and genetic discussion of Zhuyuangou molybdenum deposit in Ruyang County, Henan Province
..... YAN Haiqi, QU Jin, FU Xiaoqiang, et al(1205)

The discovery of the Wuluqiong magnetite deposit in Tibet and its geological Characteristics
..... YANG Shao, LI Dewei, CHEN Guifan, et al(1214)

Paleo - interlayer oxidation zone identification and spatial localization prediction in Daying area
..... LU Chao, JIAO Yangquan, PENG Yunbiao, et al(1228)

Zircon U–Pb chronology and geochemistry of the Kalagang Formation volcanic rocks in Bayindala area, West Junggar, and their geological significance..... LIU Ge, SHE Jianzhong, YANG Wenlong, et al(1241)

Paleogeomorphic features and sedimentary facies model of Jurassic strata in Chaoshan sub–basin, northern South China Sea QIANG Kunsheng, ZHANG Guangxue, ZHANG Li, et al(1251)

Chitinozoan biostratigraphy of the Silurian Shamao Formation in Yichang of Hubei Province
..... CHEN Xiaohong, ZHANG Miao, WANG Chuanshang, et al(1259)

Sedimentary characteristics of the bioherm in Cambrian Changshan Formation in Jinzhou area, Liaoning Province
..... GONG Yunyun, JIANG Hanlu, NI Shengli(1271)

The application of high resolution remote sensing technology to ore-prospecting in Dahongliutan-Fulugou area of West Kunlun Mountains *WANG Hui, QIN Xuwen, FAN Yuhai, et al*(1289)

Discoveries and Development

Industrial grade coalbed methane findings in Yangmeishu syncline, Liupanshui area, western Guizhou *SHAN Yansheng, BI Caiqin, ZHANG Jiaqiang, et al*(1302)

An important discovery of shale gas in Permian formation of Jianshi area, Hubei Province *ZHOU Zhi, BAO Shujing, CHEN Ke, et al*(1304)

High gas coal reservoir drilled in coal resource exhausted mining areas of Jixi Basin *BI Caiqin, SHAN Yansheng, PANG Bo, et al*(1306)

The mineralization period of the Wulanbaixing iron ore deposit in Qimantag: Evidence from zircon U-Pb dating of the quartz diorite, in Qinghai Province *ZHANG Yong, HE Shuyue, LIU Zhigang, et al*(1308)

Multiple fossils found in Nima Basin, Tibet: New evidence for stratigraphic division *LI Yinglie, WU Xinhe, WANG Rui*(1310)

The definition of the age of Manghuai Formation based on the study of palaeontology and zircon U-Pb chronology in western Yunnan Province *LUO Liliang, WANG Dongbing, CHU Daoliang, et al*(1312)

New and Highlights

Super shale gas resources discovered in northern Australia (1314)

Report on reserves of China's major mineral resources published by Ministry of Natural Resources (1315)
